Md. Din Islam

Dhaka, Bangladesh +8801930840806 muhammaddinislam08@gmail.com
md-dinislam.github.io/md-din-islam/ mddinislam08 Md-DinIslam

Professional Summary

Computer Science and Engineering undergraduate with a strong foundation in software development and competitive problem-solving. Proficient in **C++** and **Python**, with deep expertise in **data structures**, **algorithms**, and **complexity analysis**. Demonstrated technical proficiency by solving over **1,800+ problems** across Codeforces, LeetCode, and CSES, while regularly competing in **ICPC**, **IUPC**, and **national-level programming contests**. Adept at leveraging modern AI tools to accelerate development workflows, optimize codebases, and resolve complex technical issues efficiently. Proven ability to write clean, maintainable code and collaborate effectively in fast-paced, team-oriented environments. Eager to bring an analytical mindset and a strong drive for continuous learning to a software engineering role, building scalable, high-impact applications.

Technical Skills

Data Structure & Algorithms: Maintained a well-structured codebase implementing core Data Structures and Algorithms concepts learned through practice. DSA
Machine Learning: Model Training & Evaluation, Embeddings, Fine-tuning.
Programming Languages: C++, C, Python, Java, JavaScript, SQL
Databases & Vector Stores: Vector Databases, MySQL.
Web Frameworks: Django, REST APIs (learning)

Experience

Competitive Programming Mentor of Beginner Batch February 2025 – Present
Green University of Bangladesh

- Mentored undergraduate students in competitive programming, covering core topics such as **data structures, algorithms, and problem-solving** strategies.
- Guided students through **Codeforces/ CSES** style problems, improving their logical thinking, time complexity analysis, and contest performance.

General Secretary at Green University Competitive Programming Club April 2025 – April 2026
Green University of Bangladesh

- Organized and administered **CP workshops, internal contests, and mentoring activities**, supporting skill development in algorithms and data structures.
- Guided students through **Codeforces/ CSES** style problems, improving their logical thinking, time complexity analysis, and contest performance.

Projects

Multi-Client Chat Application github.com/Md-DinIslam/Multi-Client_ChatApp

- Developed a **Java-based** multi-client chat application supporting real-time communication between multiple users over a network.
- Implemented client-server architecture, handling concurrent connections, message broadcasting, and basic error handling for smooth interaction.

Thesis & Research

AaP: A Vision-based Automated Document Processing Framework for Client Application Form Verification (In Progress)

- Developed a computer vision–based system to automate client application form verification using **OCR** and document annotation techniques. The system extracts structured data from scanned documents and validates key fields

to improve accuracy and reduce manual processing time.

Achievements

Codeforces Rating: 1314 | **1400+** Problems Solved **codeforces.com/profile/din_ed**
In Various Platforms: Solved **1800+** problems (CSES, LeetCode, AtCoder etc.)
4th Runner-Up: Inter Department Programming Contest *(2024)*
ICPC: Asia Dhaka Regionalist *(2025)*
Rank-31: Inter University Collaborative Programming Contest (IUCPC) at BUBT *(2025)*
Rank-58: Inter University Programming Contest (IUPC) at CUET *(2025)*
Rank-50: Inter University Programming Contest (IUPC) at Metropolitan University(Sylhet) *(2025)*

Training & Certifications

15+ Certificate – Participation at IUPC/ ICPC / IDPC.
Competitive Programming Course – CPS Academy *(2024)*

Education

B.Sc. in Computer Science and Engineering *(Expected January 2027)*
Green University of Bangladesh
- CGPA: 3.15/4.00 (1 Semester remaining)

Higher Secondary Certificate (Science) *2020*
Sunrise College Uttara
- GPA: 4.50/5.00
